

Conference Short Name:

IWPA - IWCE2015

IWPA

helping mankind with energy from nature

India's vision of "**24 x 7 power for all by 2019**" stated by the Hon'ble Prime Minister, Shri Narendra Modi can be achieved by promoting Renewable Energy, of which Wind Energy forms a significant part.

We need to put systems, policies and framework in place to achieve this vision which will result in energy security and reduce emission of greenhouse gases.

Since the year 2010, IWPA is organizing this WE20 by 2020 Conference and Exhibition series with the single objective to find technical, financial, commercial, policy and regulatory solutions to achieve 20% grid penetration (at least in local grids) in India by 2020 by drawing in the best of the best from India and the World to deliberate and discuss the involved issues.

The Theme and Objective of this Conference and Exhibition will be to discuss and prepare the roadmap of what India should do to have 20% grid penetration by year 2020, to be in line with the 60 GW target set by MNRE by 2022.

World Wind Energy Association which organizes various continental, national and regional wind energy events is also joining us in this crusade.

Conference Date:

De Dom Jun 21, 2015 - 09 : 00 am hasta Mar Jun 23, 2015 - 07 : 00 pm

Conference Location:

Codissia Trade Fair complex
Avinashi Road GV Fair Grounds
Coimbatore, Tamil Nadu 641014
India
