

The 2020 Conference at Malaysia is postponed till a clear exit date from the current Lockdown is announced by the Govt. Please note the conference is NOT cancelled so existing authors no need to worry and new authors can still submit their Abstract.

Universiti Teknologi MARA Sarawak Branch has signed a Memorandum of Understanding (MoU) with the **National Chung Cheng University**, Taiwan on the 21st January 2019. The outcome from the meeting after the signing of the MoU, both universities have agreed to focus on protecting both countries natural resources of soils, water, vegetation and biodiversity by facilitating the development and adoption of more sustainable agricultural practices. Both universities have then agreed to jointly organize this conference. This yearly conference will be held alternately between Malaysia and Taiwan, giving opportunities for agro-based industries players from both countries in sharing their updated findings.

Vision

Connecting scientist and stakeholders for sustainable agriculture development to ensure national food security.

Mission

Organizing conferences, workshop and forum for knowledge sharing in field of agriculture and food security.

Encouraging the concept of “science to consumer” by bringing scientist to work with entrepreneurs for improvement in food productivity.
